Moneylife Advisory Services is the third entity of the Moneylife group, founded by Debashis Basu and Sucheta Dalal, after Moneylife personal magazine in 2006, to offer unbiased information and analysis on stocks, mutual funds, fixed income, insurance and other financial products.

Alarmed by poor investor awareness and rampant mis-selling of financial products, we launched Moneylife Foundation, a non-profit entity in 2010, to take up issues on behalf of savers, investors and citizens. In 2014, we launched Moneylife Advisory, a SEBI registered investment advisor, to advise retail investors on personal finance products.

In September 2019, we got registered as PMS, with SEBI. Our objective and philosophy is to help consumers choose the rights products and grow their wealth. We have walked this talk for 13 years now, which is well-documented in our websites, social media and across the Internet.
